

Maharishi Purusha Capital of the Western World

The Next Generation *Purusha*SM Program Initiative Has Begun!

A new humanity will be born, fuller in conception and richer in experience and accomplishments in all fields. Joy of life will belong to every man, love will dominate human society, truth and virtue will reign in the world, peace on earth will be permanent and all will live in fulfillment in fullness of life in God Consciousness.

— Maharishi, *The Science of Being and Art of Living*, Preface, Pg. 11

Many worthy young men are desiring an ideal life of rapid evolution and creating coherence for their nation by practicing the TM® and TM-Sidhi® programs together in a pure and silent environment that supports that goal. The Maharishi Purusha Capital of the Western WorldSM in West Virginia is such a place.

A group of Next Generation *Purusha* is now forming here. They are all enthusiastic Sidhas, love Maharishi's knowledge, possess numerous talents and have their own unique vision of how to bring Maharishi's dream of creating a group of one thousand Purusha in one location to fruition. Their program will be one of deep experiences of the Self and the very best of Maharishi's talks unfolding the details of enlightenment, supplemented by knowledge and courses from visiting luminaries and leaders of the Global Country of World Peace who come here regularly to conduct courses.

In addition, there will be ample opportunities for those who want to do so to employ their skills in projects and activities designed to help fulfill Maharishi's programs around the world. These include attending the TM Teacher Training Course and participating in teaching projects, participating in projects at the Purusha CapitalSM or elsewhere, and enrolling in the MUM online degree programs.

Establishing a vital, ongoing Purusha program is one of the cornerstones that Maharishi established to help ensure that his precious knowledge will continue generation after generation.

For more details on the Next Generation *Purusha* program and the Purusha Capital please visit purusha.org/next-gen-purusha.html.

"My experience on the 2nd annual Enlightened Leadership International Purusha Course was an absolute joy! I knew already the deep rest I would gain and profound

knowledge I would be reminded of, but most profound was the ever expanding love I would feel for the world and the people around me."—Keelan Dimick

"I had heard about Purusha and had an idea about what that kind of life might be like, but no previous conclusion could possibly do justice to the immediate experience of

the gentle power that is found here."
—Andrew Rushing
